

# Medicare Part D Plan Finder Guide

The best way to evaluate your current Medicare Part D drug plan or find a new one is with Medicare's online tool, the Plan Finder.

During the Annual Open Enrollment Period (Oct. 15-Dec. 7), you can compare plan options and select the best plan for your situation by following the instructions below. Outside of the Annual Open Enrollment period, you can't enroll in a plan on the Plan Finder, but you can see your options.

## Get ready first

To start, you'll need:

- A list of all your prescriptions, including inhalers, eye drops and creams. You will need their specific names, along with your dosages, quantities and frequency you take them.
- Your Medicare card.

## Using the Plan Finder

Go to the Medicare Plan Finder webpage ([medicare.gov/find-a-plan](https://www.medicare.gov/find-a-plan)) where you will find:

**Find Medicare health & drug plans**

- **Log in:** Medicare gives you the option to first log in to your online Medicare account or set up an account if you haven't previously done so. You can manage your drug list more easily using this feature. The Medicare website will save your drug list and usage, so you won't have to reenter your information every year.

- **Continue without logging in:** You have the option of entering your information without creating an account. Simply enter your ZIP Code, follow the prompts, and then you will have to enter your medications manually. If you do not create an account, you will need to enter your drug list each year when you review your Part D plan.
- **Select Medicare drug plan (Part D)**

Next, select the type of plan you want:

Medicare Advantage Plan (Part C)

- **Answer some quick questions about your coverage needs.** Then you will be asked to create or update your drug list.
- **If you logged in, a drug list appears from a claims database of your last year of drug purchases.** It may not be your current list of drugs, so you can edit the list to update it.
- **Add or update your drug list.** Add any additional drugs or create your list for the first time by typing the name of each medication into the text box or use the browse function to find them on Medicare’s list. Enter dosage, quantity and frequency for each drug. Repeat this process until all your drugs have been entered.

If your drug is a name-brand drug and a generic is available, it will ask if you want to choose the generic one instead. You can enter up to 40 drugs.

- **Choose pharmacies:** After you enter your medications, a list of the closest pharmacies to you will appear next to a map. If you logged in, the pharmacies you chose in the previous year show on the left side of the page. You can choose up to five pharmacies and mail order.

- **Review and choose drug plans:** Next a list of drug plans will appear. Reading your results will be the same whether you have a MyMedicare account or not, unless you have logged in, in which case your current plan will be the first on the list.

Below that, the plans automatically appear in order, from the lowest to the highest drug cost and premium.

## Working with Everence on plan choices

If you prefer to have Everence review your Part D plan and discuss your options, the Everence Part D Service center is available to help current Medicare Supplement Insurance clients during open enrollment. There is a \$50 fee to have Everence review your Part D plan. Everence staff are committed to treating your Medicare information as confidential whenever we work with you.

**Part D Plans are serviced through the insurance company directly. To check cost, payment, or to change your enrollment you must contact the company of your Part D Plan.**
