Beta	1.00
Turnover ratio	29.0%

Price/Earnings ratio (P/E) is the price of a stock divided by its earnings per share. It gives investors an idea of how much they are paying for a company's earning power. The higher the P/E, the more investors are paying, and the more earnings growth they are expecting.

Beta rating attempts to measure relative risk. A beta rating of higher than one indicates greater relative volatility than the market. A beta rating lower than one indicates lower volatility than the market, as defined by the MSCI EAFE.

Turnover ratio is the percentage of a fund's holdings that have been replaced in the last year.
